

**Table of Contents of
International Journal of Performability Engineering, Vol. 17, No. 2, February 2021**

Author(s)	Title of the Paper	Pages
Uma Maheshwar Janniekodea, Rajendra Prasad Sominenib, and C.D. Naiduc	Design and Performance Analysis of 6T SRAM Cell in Different Technologies and Nodes	167-177
Naina Nisar, Nitin Rakesh, and Megha Chhabra	Review on Email Spam Filtering Techniques	178-190
Fatma Zohra Labadlia, Elias Hadjadj Aoul, Brahim Hamaidi, and Mohammed Bougofa	Optimization of Safety Instrumented System Configuration based on Simplex Algorithm	191-199
Sidali Bacha, Ahmed Bellaouar, and Jean-Paul Dron	Predictive Variable Influence on Operating Safety of an Oil Pump using a Generalized Proportional Intensity Model	200-207
Abhishek Srivastava, Deepti Mehrotra, P.K. Kapur, and Anu G. Aggarwal	Agile Testing Efficiency using an Integrated Approach of Fuzzy-based MOORA and AHP	208-215
S. Nallusamy	Performance Measurement on Inventory Management and Logistics Through Various Forecasting Techniques	216-228
Apoorva Khaimar, Abhishek Patange, Sujit Pardeshi, and R. Jegadeeshwaran	Supervision of Carbide Tool Condition by Training of Vibration-based Statistical Model using Boosted Trees Ensemble	229-240
Sofiane Maza and Oussama Megouas	Framework for Trustworthiness in Software Development	241-252
