International Journal of Performability Engineering, Vol. 17, No. 8, August 2021**

Author(s)	Title of the Paper	Pages
Hui Li, Cunlong Zhu, Xiaodan Wang, Wenfeng Liu, and Yutao Sun	Parallel Algorithms for Earth Observation Coverage of Satellites	657-665
Tyler D. Ridder and Ram M. Narayanan	Radar Detection Performability under Graceful Degradation	666-675
Yi-Chun Cheng, Yi-Kuei Lin, and Ping-Chen Chang	Reliability Evaluation for a Multistate Network with Time Attribute and Periodical Maintenance	676-685
Y Sai Ratnakar, P Srinivasa Reddy, M Gangadhar Rao, and D Appanna	Experimental Investigation and Optimization on Microstructure & Mechanical Properties of AA5052 in Comparison with AA2024 and AA8090 using Friction Stir Welding	686-694
Angel Arul Jothi J and Razia Sulthana A	A Review on the Literature of Fashion Recommender System using Deep Learning	695-702
S.P. Shantharajah and E. Maruthavani	A Survey on Challenges in Transforming No-SQL Data to SQL Data and Storing in Cloud Storage based on User Requirement	703-710
Harinee S and Anand Mahendran	Secure ECG Signal Transmission for Smart Healthcare	711-721
Padma Priya R, Aditya Tiwari, Ayush Pandey, and Siddharth Krishna	Identifying Video Tampering using Watermarked Blockchain	722-732
Kajal Dwivedi, Ramanathan Lakshmanan, and Rajeshkannan Regunathan	K-means Under-Sampling for Hypertension Prediction using NHANES Dataset	733-740
