

**Table of Contents of
International Journal of Performability Engineering, Vol. 19, No. 2, February 2023**

Author(s)	Title of the Paper	Pages
Liwei Chen, Jianhao An, Mingxin Du, and Kai Su	A New Method of Identifying the Prognostic Factors of Hepatocellular Carcinoma Patients	85-93
Bhagirath, Neetu Mittal, and Sushil Kumar	Impact of Real Time Fraud Prevention on Online Resale Platform using Machine Learning and Device Fingerprint Techniques	94-104
Devendra Gautam, Anurag Dixit, Latha Banda, Harish Kumar, Purushottam Sharma, and Chaman Verma	Quality Enhancement of Recommendation using Improved Triangle Ratings	105-114
Shalaka Prasad Deore	SongRec: A Facial Expression Recognition System for Song Recommendation using CNN	115-121
Shikha Choudhary and Bhawna Saxena	Image-Based Crop Disease Detection using Machine Learning Approaches: A Survey	122-132
Ashima Arya and Sanjay Kumar Malik	Software Fault Prediction using K-Mean-Based Machine Learning Approach	133-143
P. Antony Seba and J. V. Bibal Benifa	Hybrid Outlier Detection Strategy and Weighted Decision Matrix Ordinal Classifier for CKD Severity Prediction	144-154
