

**Table of Contents of
International Journal of Performability Engineering, Vol. 19, No. 4, April 2023**

Author(s)	Title of the Paper	Pages
Chia-En Lai and Chin-Yu Huang	Developing a Modified Fuzzy-GE Algorithm for Enhanced Test Suite Reduction Effectiveness	223-233
Amanpreet Kaur, Alisa Gazizullina, and Archana Mantri	Analyzing the Effects of Virtual Reality Headsets on Human Memory	234-241
Samiya Bouarroudj and Zizette Boufaida	An ILP Approach to Learn MKNF+ Rules for Fault Diagnosis	242-251
Taniya Hasija, K. R. Ramkumar, Bhupendra Singh, Amanpreet Kaur, and Sudesh Kumar Mittal	A Performance Analysis of Root-Converging Methods for Developing Post Quantum Cryptography Algorithms to Mitigate Key-Size-Based Attacks	252-262
Yassine Eddouh, Abdelmajid Daya, Rabie Elotmani, and Abdelhamid Touache	Imperfect Maintenance Model for Optimizing Air Compressor Availability	263-272
Bhushan Nandwalkar, Sukruta Pardeshi, Makarand Shahade, and Ashish Awate	Descriptive Handwritten Paper Grading System using NLP and Fuzzy Logic	273-282
Sidali Bacha and Ahmed Bellaouar	Assessment of the Effectiveness of Maintenance Actions and the Influence of Covariates on the Reliability of Gas Turbines using the Extended Generalized Proportional Intensity Model	283-290
