<b>Author(s)</b>	<b>Title of the Paper</b>	<b>Pages</b>
Manu Banga	Enhancing Software Fault Prediction using Machine Learning	529-540
Vikas Kumar, Charu Wahi, Bharat Bhushan Sagar, and Manisha Manjul	Ensemble Learning Based Intrusion Detection for Wireless Sensor Network Environment	541-551
Aditya Dayal Tyagi and Krishna Asawa	Influence Maximization in Social Network using Community Detection and Node Modularity	552-562
V S Vijaya Krishna V	Embedded Soft Sensor for Bioreactor Application using Soft Processor of Zynq SoC	563-571
Anshu Devi, Ramesh Kait, and Virender Ranga	A Novel Approach for Secure and Efficient VANET Communication: Integrating Clustering, Curve Fitting, and Fog Computing	572-580
Ekta Singh and Parma Nand	Efficient Multi-Class Facial Emotion Recognition using YOLOv9: A Deep Learning Approach for Real-Time Applications	581-590
