

**Table of Contents of
International Journal of Performability Engineering, Vol. 21, No. 02, February 2025**

Author(s)	Title of the Paper	Pages
Akanksha Mehndiratta and Krishna Asawa	Modeling Discourse for Dialogue Systems using Spectral Learning	65-73
Sidali Bacha	Evaluation of the Dynamic Behavior of Critical Systems using the Mixture Weibull Proportional Hazard Model: A Case Study of a Gas Turbine	74-83
Vibha Mani and Shruti Jaiswal	Comparative Analysis of Hash Functions in Blockchain for Implementation of Blockchain on a Resource-Constrained System	84-93
Ashu Mehta, Navdeep Kaur, and Amandeep Kaur	Addressing Class Imbalance in Software Fault Prediction using BVPC-SENN: A Hybrid Ensemble Approach	94-103
Meroua Sahraoui and Ahmed Bellaouar	Improving Industrial Production Efficiency: A Hybrid Approach to Dynamic Scheduling – A Case Study	104-111
Pancham Singh, Updesh Kumar Jaiswal, Eshank Jain, Nikhil Kuamr, and Vimlesh Mishra	A Novel Methodology Utilizing Modern CCTV Cameras and Software as a Service Model for Crime Detection and Prediction	112-122
